🥧 Experience

Alloha Fibra May 2024 – Sep 2024
Full-Stack Developer *São Paulo, SP. Brazil*
> Worked on service development with C#, JavaScript, and TypeScript. On the front-end, I created modules using JavaScript and React, utilizing Vite or Next to optimize development. I also develop and maintain applications in PHP, manage MySQL databases, and create CRUDs, triggers, procedures, and functions for processes.

VIVO May 2022 – May 2024
Full-stack Developer *São Paulo, SP. Brazil*
* Tech lead in projects and migrations using Node, React, Vite, Express, Nest, jQuery, Ajax, SQL Server, MySQL, ETL server, and infrastructure with technologies such as PM2, Putty, Nginx, Filezilla, Pentaho9.

ZENVIA Mar 2021 – May 2022
Full-stack Developer *Guaratinguetá, SP. Brazil*
* Developer using Node, React, Docker, TypeScript, and Redis.

🎓 Education

ALURA Courses - JavaScript and SQL 2021 – 2024
Programming Course *Web*

Rocketseat - Node and React Path 2024 – Present
Programming Course *Web*

Udemy - Advanced C# 2023 – 2024
Programming Course *Web*

Bachelor's Degree in Computer Engineering Nov 2020 – Sep 2022
UNISAL *Lorena, Brazil*

⚗ Projects

vergs-tattoo-studio https://portifolio-vergz2.vercel.app/
> Freelancer project requested by a tattoo studio, fully responsive.
